A Century Strong

Independent Auditors' Report

THE BOARD OF TRUSTEES
THE SAN FRANCISCO FOUNDATION
San Francisco, California

Opinion

We have audited the financial statements of THE SAN FRANCISCO FOUNDATION (the Foundation), which comprise the statement of financial position as of June 30, 2022, the related statements of activities and changes in net assets, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as of June 30, 2022, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for one year from the date of this report.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Summarized Comparative Information

Hood & Strong UP

We have previously audited the Foundation's 2021 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 14, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Notes to the Financial Statements (dollars in thousands)

Note 1 - Organization:

The San Francisco Foundation (the Foundation) is a public benefit community foundation created in 1948 for the broad-based public benefit of residents in the Bay Area. The Foundation operated as a Trust until July 1, 2003 when it became a non-profit public benefit corporation under the laws of California.

The Foundation mobilizes resources and acts as a catalyst for change to build strong communities, foster civic leadership, and promote philanthropy. Through the generosity of donors, past and present, the Foundation funds approximately 3,000 non-profit organizations in the Bay Area and across the country each year in response to the ever-changing demographics and needs of our communities. The Foundation's challenge is to ensure that everyone in the Bay Area can thrive and reach their full potential. The Foundation wants to ensure that everyone has a good job, lives in a safe and affordable home, has a strong political voice, and can live in a community that provides real access to opportunity. At the center of this, is the need to advance greater racial and economic equity throughout the region. To reach this goal, the Foundation focuses on three interrelated pathways: 1) People: expanding access to opportunity by removing systemic barriers, 2) Place: anchoring communities that reflect people's culture and identity, and 3) Power: nurturing equity movements to ensure a strong political voice for all. The Foundation supports equity-focused efforts through grants, civic leadership, advocacy, and program related investments.

The bylaws of the Foundation include a variance provision giving the Board of Trustees (the Trustees) the power to modify any restriction or condition placed on gifts to the Foundation if, in its sole judgment, the Trustees determine that the restriction becomes, in effect, incapable of fulfillment or inconsistent with the charitable needs of the community or area served.

Note 2 - Significant Accounting Policies:

a. Basis of Accounting and Presentation

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Accordingly, the Foundation presents information regarding its net assets and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restrictions.

Net Assets without donor restrictions – the portion of net assets not subject to time or donor-imposed restrictions that may be expended for any purpose in performing the primary objective of the Foundation. Net assets without donor restrictions include total donor advised and other client funds held by the Foundation with variance power. The Trustees have designated certain net assets for additional program related investments and operating reserves (Note 12).

Notes to the Financial Statements (dollars in thousands)

Net Assets with donor restrictions – the portion of net assets consisting of irrevocable charitable trusts, contributions unconditionally promised which are scheduled to be received in the future, purpose-restricted grants, and donor-restricted endowment funds. Also included in net assets with donor restrictions is the Foundation's interest in a perpetual trust. When donor restrictions expire, that is, when a stipulated time restriction ends or a purpose restriction is fulfilled, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the Statement of Activities and Changes in Net Assets as net assets released from restrictions.

b. Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include the Foundation's operating and checking accounts. Cash and cash equivalents are also maintained within investments (Note 4), which are liquidated as necessary to meet payment obligations.

c. <u>Investments</u>

The Foundation reports investments at fair value. Gains and losses that result from market fluctuations are recognized in the Statement of Activities and Changes in Net Assets in the period such fluctuations occur. Dividend and interest income are accrued when earned. Investments received through gifts are recorded at estimated fair value at the date of donation.

Due to the inherent uncertainty of the valuation of non-marketable and restricted investments, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

In addition, the Foundation reports certain investments using the Net Asset Value (NAV) per share as determined by investment managers under the so-called "practical expedient." The practical expedient allows NAV per share to represent fair value for reporting purposes when the criteria for using this method are met. On an annual basis, management reviews the audited financial statements for each investment and compares the value reported by the fund manager to the value contained in the audited financial statements to assess the reasonableness of the valuation.

For cash flow purposes, purchases of investments represent the total additions to the portfolio from revenues received during the year. Proceeds from the sale of investments represent the withdrawals used for grants and operations.

Notes to the Financial Statements (dollars in thousands)

d. Fair Value Measurements

The Foundation carries certain assets and liabilities at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurement standards also require the Foundation to classify these financial instruments into a three-level hierarchy. The Foundation classifies its financial assets and liabilities according to three levels and maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value.

- Level 1 Unadjusted quoted market prices in active markets for identical assets or liabilities that the Foundation has the ability to access at the measurement date.
- Level 2 Observable inputs other than quoted market prices included within Level 1 for the asset or liability, either directly or indirectly.
- Level 3 Unobservable inputs for the asset or liability that are not corroborated by market data.

e. Endowment Funds

The Foundation follows the guidance of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 958-205 "Endowments of Notfor-Profit Organizations – Net Assets Classification of Funds Subject to Enacted Version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA), and Enhanced Disclosures for All Endowment Funds." The State of California adopted a version of UPMIFA as its State Prudent Management of Institutional Funds Act (SPMIFA).

Interpretation of Relevant Law

The Trustees have determined that the Foundation holds net assets that meet the definition of endowment funds under SPMIFA.

The corpus value of funds subject to SPMIFA represents the fair value of the original gift as of the gift date and the original value of subsequent gifts and is classified as with donor restriction in cases where the donor indicated that a portion of the fund be retained permanently. The excess balance is classified as with donor restrictions until appropriated, at which time the appropriation is reclassified to net assets without donor restrictions.

In accordance with SPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund, (2) the purposes of the Foundation and the donor-restricted endowment fund, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Foundation, and (7) the investment policies of the Foundation.

Notes to the Financial Statements (dollars in thousands)

From time to time, the fair value of the assets associated with individual donor-restricted endowment funds may fall below historical gift value. There is one underwater endowment fund as of June 30, 2022 which was opened during the fiscal year; the corpus of the fund is \$2,272 and was valued at \$2,010 as of June 30, 2022.

Investment and Spending Policies

The Foundation implements a long-term investment strategy based on broad asset class diversification including the use of equities, fixed income and private assets. The Foundation has long-term investment policy targets and permitted ranges for each asset class within the portfolio.

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. The Foundation's spending and investment policies work together to achieve this objective. The current long-term return objective is to earn the spending policy percentage plus inflation, net of investment fees. Actual returns in any given year may vary from this amount. To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk parameters.

The spending policy calculates the amount of money annually distributed from the Foundation's various endowed funds for grantmaking and administration. Recognizing the imperative to combat racial inequities that came into sharp relief in 2020, the Trustees approved a plan to increase the spending policy above the long-term average for a period of five years in order to distribute approximately an additional \$10,000 over that timeframe. For the year ended June 30, 2022, the spending policy for endowments with restrictions that permitted their use for these purposes was set at 5.75%, while other endowments remained at 5%, resulting in a weighted average spending policy of 5.37% of a 16-quarter rolling average. Over the long term, the Foundation expects its spending policy to allow its endowment assets to grow at an average rate of inflation annually. This is consistent with the Foundation's objective to maintain the purchasing power of endowment assets as well as to provide additional real growth through new gifts.

f. Charitable Trust Assets

Charitable trust assets include the estimated fair value of various irrevocable charitable trusts. Trusts in which the Foundation is both trustee and secondary beneficiary are recorded at the fair value of the assets in the trust. The assets of these trusts generally include marketable equity and debt securities, which are recorded at fair value determined based on quoted market prices.

Notes to the Financial Statements (dollars in thousands)

Trusts for which the Foundation is not the trustee are recorded as contributions receivable from charitable trusts and are recorded at the fair value of the assets in the trusts, less the present value of any expected payments, using a rate determined by the specifics of the assets and terms of each trust.

g. Beneficial Interest in Perpetual Trust

The Foundation is the beneficiary of an irrevocable trust, from which the Foundation receives the income in perpetuity. The assets are held by a third-party trustee. The value of the beneficial interest is based upon the fair value of the assets in the trust.

h. Fixed Assets

The Foundation capitalizes capital expenditures with a cost over \$2 and a useful life greater than one year. Fixed assets and leasehold improvements are recorded at cost. Depreciation is computed using the straight-line basis over the estimated useful lives of assets ranging from three to seven years. Amortization of leasehold improvements is computed over the lesser of the useful life or the term of the related lease.

i. Program Related Investments

Program related investments consist of loans which are measured at cost, and other programmatic investments, including a fixed income mutual fund, a promissory note with proceeds used to make loans to Community Development Financial Institutions, money market accounts and certificates of deposit in community banks.

These investments are evaluated for impairment annually and the loan loss allowance adjusted periodically based on risk and other factors. Interest rates charged on loan receivables are generally below market rates. The loans are measured at fair value at inception to determine if a contribution element (an implicit subsidy via what would be considered below-market rates) exists, and are recorded on a net basis to reflect a discount on loans receivable (if a contribution exists) or a reasonable loss reserve. The Foundation's loan receivables are recorded at the time the loan is funded and agreed to by both parties. The Foundation records other programmatic investments at fair value.

j. Liability to Beneficiaries

Liability to beneficiaries represents the present value of the liability due to primary beneficiaries of the irrevocable charitable trusts for which the Foundation is both trustee and secondary beneficiary. The liability is calculated using life expectancies from the 2012 Individual Annuity Reserve (IAR) mortality table and a discount rate of 7%.

Notes to the Financial Statements (dollars in thousands)

k. Revenue Recognition

Contributions are recognized as revenue when received or unconditionally promised. Contributions of assets other than cash are recorded at their estimated fair value on the date donated. Contributions to be received after one year are discounted at an appropriate market discount rate. Conditional promises to give - that is, those with a measurable performance or other barrier and a right of return - are not recognized until the conditions on which they depend have been met.

As discussed in Note 2(a) above, the Foundation receives contributions subject to time or purpose restrictions. When the restriction is met in the same period the contribution is received, the contribution is recorded as with donor restrictions and net assets released from restrictions in the Statement of Activities and Changes in Net Assets.

1. Grant Expenses

Grant expenses are recognized when unconditional promises to give are approved by the Trustees. Grant refunds are recorded as reductions of grant expenses at the time the grants are refunded to the Foundation. Grants payable represent the present value of grants to be paid in the future. The discount on those amounts is computed using market interest rates applicable in the year in which the grant is approved. Amortization of the discount is included in grant expense.

m. Allocations of Functional Expense

The Statement of Activities and Changes in Net Assets reflects expenses in the categories of program, management and general, and fundraising. Because departments are organized along functional lines, for most departments, expenses are allocated based upon the primary purpose of the department. Multi-purpose departments (chief executive, development and donor services, and marketing and communications) are split among program, management and general, and fundraising based upon time estimates made by the Foundation's management staff in these departments.

Overhead expenses (occupancy, equipment rental, and management information systems) are allocated based on actual average full-time employee equivalent percentages to departmental expenses among program, management and general, and fundraising.

n. Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain amounts. Accordingly, actual results could differ from these estimates.

Notes to the Financial Statements (dollars in thousands)

o. Comparative Information and Reclassifications

The financial statements include certain comparative information for which the prior year information is summarized in total but not by net asset class. Accordingly, such information should be read in conjunction with the Foundation's financial statements for the year ended June 30, 2021, from which the summarized information is derived.

Certain reclassifications have been made to the 2021 financial statements to conform to the 2022 presentation. The reclassifications had no impact on net assets or the change in net assets.

p. <u>Tax Exempt Status</u>

The Foundation is a tax-exempt organization under the Internal Revenue Code (the Code) Section 501(c)(3) and related California code sections and has been classified as an organization which is not a private foundation as defined in Sections 509(a)(1) and 170(b)(i)(A)(vi) of the Code. However, the Foundation is subject to tax on unrelated business income, such as income generated by its investments.

As of June 30, 2022, management evaluated the Foundation's tax positions and concluded that the Foundation had maintained its tax-exempt status and had taken no material uncertain tax positions that require adjustment to or disclosure in the financial statements.

q. Recent Accounting Pronouncements

Pronouncements Effective in the Future

In February 2016, the FASB issued Accounting Standards Update (ASU) 2016-02, *Leases (Topic 842)*. The amendments in this update will supersede much of the existing authoritative guidance for leases. The ASU requires lessees, among other things, to recognize right-of-use assets and liabilities on their balance sheet for all leases with lease terms longer than twelve months. The standard will be effective for the Foundation for its fiscal year ending June 30, 2023, with early application permitted. The Foundation is currently evaluating the impact of this pronouncement on its financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, which creates a new credit impairment standard for financial assets. The ASU requires loans and trade receivables measured at amortized cost to be presented at the net amount expected to ultimately be collected. The allowance for credit losses includes all losses that are expected to occur over the remaining life of the asset, rather than incurred losses through the date of the financial statements. Changes in the allowance for credit losses are recorded in the statement of income as the amounts expected to be collected change. Contribution pledges recorded as receivable are excluded from the new impairment standard. The ASU is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. The Foundation is currently evaluating the impact of adopting this new guidance on its financial statements.

Notes to the Financial Statements (dollars in thousands)

r. Subsequent Events

The Foundation evaluated subsequent events with respect to the financial statements for the year ended June 30, 2022 through December 22, 2022, the date the financial statements were available to be issued, and has determined that no adjustments are necessary to the amounts reported in the accompanying financial statements nor have any subsequent events occurred, the nature of which would require disclosure, except as discussed in Notes 4 and 7.

Note 3 - Contributions and Other Accounts Receivable, Net:

Contributions and other accounts receivable consisted of the following as of June 30:

	2022	2021
Contributions receivable (net of discount of \$2 and \$10		
for the years ended June 30, 2022 and 2021, respectively)	\$ 1,028	\$ 12,070
Bequests receivable	3,882	9,082
Accrued interest on investments	1,229	1,112
Other accounts receivable	339	434
Total	\$ 6,478	\$ 22,698

Contributions and other receivables as of June 30, 2022 are expected to be received as follows: \$6,458 within one year and \$20 within two to five years.

Notes to the Financial Statements (dollars in thousands)

Note 4 - Investments:

The Foundation's investments consisted of the following as of June 30:

	2022	2021
Cash and cash equivalents	\$ 120,210	\$ 78,834
Fixed income	350,737	430,927
Domestic equities	327,759	485,043
International equities	173,620	191,606
Global equities	170,953	183,856
Alternative investments	422,055	457,289
Subtotal	1,565,334	1,827,555
Receivables for unsettled transactions	1,346	82
Payables for unsettled transactions	(1,041)	(3,409)
Total	\$ 1,565,639	\$ 1,824,228

The Foundation's investment income consisted of the following for the year ended June 30:

	2022	2021
Realized and unrealized (loss) gain	\$ (189,135) \$	373,546
Fees (management and performance)	(3,948)	(7,444)
Dividends and interest	10,446	9,937
Unrelated business income tax expense	(425)	(206)
Investment (loss) income, net	\$ (183,062) \$	375,833

The majority of donor advised fund investments are allocated among long-term, short-term, and mission-aligned investments pools as recommended by donor advisors. The short-term pool provides liquidity for current giving requirements. Approximately 30% of the donor advised funds allocate 75% or more of their funds to the short-term pool. The long-term pool has an investment objective of earning 5% above the long-term inflation rate and is appropriate for the portion of a donor advised fund with a very long-term outlook. The mission-aligned investments pool has a market rate return investment objective, and is appropriate for the portion of a donor advised fund with a long-term horizon where the advisor seeks to invest using a variety of impact investment and socially-responsible strategies, such as social screens and environmental, social and governance considerations. Donor advised funds invested outside the pools are invested in cash, liquid fixed income and equity strategies, based on the donor's plans for current giving.

Notes to the Financial Statements (dollars in thousands)

Subsequent to year-end, the Foundation committed \$12,000 with new investment managers.

Note 5 - Fair Value Measurements and Net Asset Value:

Fair Value Measurement

The table below presents the balances of assets measured at fair value as of June 30, 2022 on a recurring basis:

recurring custo.				(a)
	<u>Total</u>	<u>Level 1</u>	Level 2	NAV
Cash and Cash Equivalents	\$ 120,210	\$ 120,210		
Fixed Income:

(a) In accordance with FASB ASC subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of Financial Position.

Notes to the Financial Statements (dollars in thousands)

Net Asset Value

The Foundation uses NAV as a practical expedient to determine the fair value of all the underlying investments which do not have a readily determinable fair value and prepare their financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company. The following table lists investments valued at NAV by major category as of June 30, 2022:

Strategies	# of Funds	Valuation		funded mitment	Redemption Frequency	Redemption Notice Period	Redemption Gates
Strategies	Tullus	v aiuatioii	Colli	шшш	Trequency	Notice I effou	Gales
Pooled Funds:							
Fixed income (a):							
Redeemable	2	\$ 48,701			Semi-monthly to Monthl	y 5-15 days	
Domestic equities (b):					·		
Redeemable	1	11,816			Monthly	5 days	
Redeemable with restrictions	s 7	232,160			Quarterly to Annually	45-180 days	0-50%
International equities (c):						•	
Redeemable	2	40,919			Monthly	10-30 days	
Redeemable with restrictions	s 3	95,694			Quarterly to 3 Years	60-90 days	0-100%
Global equities (d):					•	•

Private equity (h):		,			•	Ž	
Non-redeemable	57	186,400	\$	83,793	None		
Total	89	\$ 1,022,298	\$	83,793			

- a) The fixed income strategies are actively managed, diversified portfolios of United States (U.S.) investment grade and below investment grade fixed income and non-U.S. fixed income investments.
- b) The domestic equity funds invest in actively managed funds benchmarked to U.S. equity indices. One redeemable with restrictions fund valued at \$57,661 has 17% in illiquid assets.
- c) The international equity strategies are all actively managed and invest in both emerging and developed market equities.

Notes to the Financial Statements (dollars in thousands)

- d) The global equity funds are all actively managed and invested in U.S., non-U.S. developed, and non-U.S. emerging market equities. One redeemable fund valued at \$24,203 has 30% in illiquid assets. One fund valued at \$6,000 represents a holdback and is illiquid.
- e) The hedged equity funds consist of directly held funds with a wide range of investment strategies. These funds are primarily long public equity securities, but others are short public equity securities and hold small amounts of fixed income and derivative securities.
- f) The multi-strategy funds consist of directly held funds with a wide array of investment strategies. Approaches include public and private equity, long/short equity and debt strategies, credit arbitrage and active fixed income investing.
- g) Long/short credit strategies invest in both long and short positions in high yield fixed income.
- h) Private equity strategies invest in various domestic and international companies by using fund of funds as well as directly held funds. The partnerships have a remaining legal life span of up to 12 years as of June 30, 2022 with no redemption rights for the limited partners. Liquidity is expected in the form of distributions from the funds when the underlying assets are sold.

Note 6 - Charitable Trust Assets:

Charitable trust assets consisted of the following as of June 30:

	2022	2021
Assets held in charitable trusts in which the Foundation is both trustee and secondary beneficiary Contributions receivable from non-trusteed charitable trusts	\$ 18,830 4,357	\$ 22,437 4,981
Beneficial interest in charitable lead annuity trust	3,484	
Total	\$ 26,671	\$ 27,418

Assets associated with the charitable lead annuity trust consists primarily of private equity securities. Assets associated with all other charitable trusts consist primarily of cash equivalents, equities, and fixed income securities.

Notes to the Financial Statements (dollars in thousands)

Note 7 - Program Related Investments:

Program related investments consisted of the following as of June 30:

	2022	2021
Notes receivable	\$ 27,854	\$ 25,592
Notes receivable loan loss allowance Mission deposits and other programmatic investments	(707) 3,439	(714) 3,596
Total	\$ 30,586	\$ 28,474

Notes receivable as of June 30, 2022 are expected to be received as follows: \$7,151 within one year, \$8,503 within two to five years, and \$12,200 beyond five years.

As of June 30, 2022, the Foundation has a contingent loan of \$25,000 of which \$13,225 has been disbursed and is included in notes receivable. Additional disbursements of up to \$11,775 are contingent upon the Foundation raising funds from donors for this purpose and the borrower requesting disbursement. Additional disbursements must be made by October 2023 and the loan matures in 2031.

As of June 30, 2022, the Foundation has two non-revolving loans with an extended drawdown period and total authorized disbursements of \$6,000, of which \$2,000 has been disbursed. Additional disbursements of \$4,000 can be requested by the borrowers during the loan drawdown periods which extend through August 2030.

Subsequent to year end, the Foundation made additional loan commitments of \$2,400 and disbursements of \$9,050.

Note 8 - Other Assets:

Other assets consisted of the following as of June 30, 2022:

Beneficial interest in perpetual trust	\$ 3,066
Fixed assets (\$5,331 net of accumulated depreciation of \$4,990)	341
Artwork	335
Security deposit and prepaid rent	209
Other	 209
Total	\$ 4,160

Depreciation and amortization expense was \$278 for the year ended June 30, 2022.

Notes to the Financial Statements (dollars in thousands)

Note 9 - Grants Payable, Net:

Grants payable at June 30, 2022 were scheduled to be disbursed as follows:

Year Ending June 30,	
2023	\$ 12,152
2024	1,139
2025	45
2026	6
	13,342
Less discount on multi-year grants payable	(41)
Grants payable, net	\$ 13,301

Grant expense for the fiscal year ended June 30, 2022 totaled \$238,192. Grant expense includes transfers of donor advised funds to other sponsoring organizations totaling approximately \$46,000.

Note 10 - Agency Funds:

Agency funds represent funds transferred to the Foundation by other not-for-profit organizations that have specified themselves as the beneficiary. These funds are accounted for as assets and liabilities in the Statement of Financial Position and their activities are excluded from the Statement of Activities and Changes in Net Assets. However, the Foundation maintains legal ownership of the assets and has variance power.

The following is a roll forward of the agency funds:

Balance as of June 30, 2021	\$ 66,248
Contributions	9,080
Interest and dividends	354
Net loss (realized and unrealized)	(6,057)
Grants out of agency funds	(3,389)
Other expenses	(761)
Balance as of June 30, 2022	\$ 65,475

Notes to the Financial Statements (dollars in thousands)

Note 11 - Endowments:

All endowments are donor restricted endowment funds. Changes in donor restricted endowment funds were as follows for the year ended June 30, 2022:

Endowment net assets, beginning of year	\$ 1,046,588
Change in endowment net assets:	
Interest and dividends	3,968
Investment management fees	(4,227)
Net loss (unrealized and realized)	(133,322)
Change in value of split interest agreements	(353)
Contributions	3,589
Net donor reclassification of endowment funds to	
non-endowment	(15,026)
Appropriation for expenditure	(42,834)
	_
Change in endowment net assets	(188,205)
Endowment net assets, end of year	\$ 858,383

The endowed assets are comprised of approximately 250 individual funds. The Foundation honors the intent expressed by the donor at the time of the gift. Of the grantmaking made from endowed funds in the year ended June 30, 2022, approximately one-half are funds that have been entrusted by donors to the Foundation to determine the best use of the funds to benefit the community. The balance is allocated according to the intent of the donors across the Foundation's equity focused grantmaking pathways of people, place, and power.

	(1,110,707)
	, , , , , , , , , , , , , , , , , , , ,
Financial assets available to meet general expenditures	ф. 71 0.007
within one year	\$ 519,935

Notes to the Financial Statements (dollars in thousands)

The Foundation's goal is to generally maintain ample liquidity in its investment portfolios by managing to targets set by the investment committee and approved by the Trustees, reflecting the cashflow needs and variability for each portfolio. The Foundation's management regularly forecasts liquidity needs for cashflow planning purposes and plans ahead for investment redemptions. The cash required for the annual operating expense budget is moved to the short-term pool and checking account at the beginning of each fiscal year. The Foundation's short-term portfolio, which is used for administrative funds along with the portion of donor advised funds intended for expenditure in the near term, holds marketable fixed income securities and maintains a weighted average maturity of less than one year. Additionally, Board-designated funds are designated for future program related investments and an operating reserve, which could be undesignated by the Trustees and made available for general operations as needed.

The predictability of the Foundation's spending policy enables management to target a higher, but still conservative proportion of illiquid investments with endowed fund balances compared with other fund types. The Foundation's program related investment fund, the Bay Area Community Impact Fund, makes long-term loans and consequently, management requires that funds are invested with a minimum commitment of five years to ensure ample available cash for lending.

Note 14 - Commitments and Contingencies:

The Foundation leases office facilities and various office equipment under operating leases which expire through 2024.

The following is a schedule of future minimum lease payments required under non-cancelable operating leases as of June 30, 2022:

Year Ending June 30, 2023 2024	\$ 1,163 350
Total future minimum lease payments	\$ 1,513

Rental expense was approximately \$1,234 for the year ended June 30, 2022.

Note 15 - Related Parties:

The Foundation has and may continue to have Trustees and committee members who hold interests in, or are employed by, corporations or partnerships held as investments by the Foundation. The Foundation has a conflict-of-interest policy which covers investments and vendor relationships with Trustees, committee members, and staff. The policy requires annual disclosures and discussion of potential conflicts at meetings, so that Trustees, committee members, and staff may continue to serve the Foundation through their professional knowledge and expertise.

Notes to the Financial Statements (dollars in thousands)

Note 16 - Retirement Plan:

The Foundation provides a defined contribution plan under Section 401(k) of the Code (the 401(k) Plan). Employees are considered eligible for contributions after they have completed one year of service and 1,000 hours of employment. For 2022, the Foundation contributed 12% of salary to the 401(k) Plan for all eligible employees, as defined.

The cost of the Foundation's contribution to the 401(k) Plan was \$1,079 for the year ended June 30, 2022.

Note 17 - Concentrations:

Risk

Investments in general are exposed to various risks, such as interest rate, credit, and overall market volatility. To address the risk of investments, the Foundation maintains a formal investment policy that sets out performance criteria, investment guidelines, and asset allocation guidelines, and requires review of the investment managers' performance. Investments are managed by multiple investment managers, who have responsibility for investing the funds in various investment classes. An investment consultant is also utilized. This entire process is actively overseen by an investment committee that includes members and non-members of the Trustees.

In addition to investments, concentrations of market and credit risk exist for cash and cash equivalents and charitable trust assets. At times, cash amounts might exceed federally-insured limits.

Other

The majority of contributions and bequests consist of donations from individuals and estates. Approximately 28% of the contributions and bequest revenue was comprised of funds from four contributors for the year ended June 30, 2022. There were no outstanding contributions receivable from these contributors as of June 30, 2022.
